**Kawasaki**

# Kawasaki motorcycles are a distillation of the most advanced technology the world has to offer.

Representing a unique engineering heritage and a wealth of technological expertise combined with passion, performance and individuality, Kawasaki motorcycles are not just about high performance. They are a crystallisation of advanced technology arising from the collective efforts of the Kawasaki Heavy Industries Group, whose activities span a wide range of business domains including Land, Sea and Air Transportation Systems, Energy & Environmental Engineering and Industrial Equipment.

Kawasaki motorcycles possess both power and grace so are often recognised as being different to other bikes. This results from certain guiding principles adopted at the design stage. Rideology is Kawasaki's rider-centric development philosophy focused on how the riding experience offered by a Kawasaki is crafted, ensuring that our machines are fun to ride and rewarding to control. This approach has been the force behind many of our legendary machines, and in our pursuit of all possibilities it will continue to guide the future creation of Kawasaki motorcycles.

**Kawasaki**

## WORLD CLASS

IF YOU COMPETE YOUR NATURAL INSTINCT IS TO WIN. KAWASAKI FEEDS THAT DESIRE TO DOMINATE ON TRACK AND TO BE BEST IN CLASS FROM A FIRST FORAY INTO CLUB RACING ALL THE WAY TO THE PINNACLE OF PRODUCTION BASED RACING IN WORLDSBK AND MXGP.

Four years ago Jonathan Rea won his first WorldSBK title aboard the Ninja ZX-10R. He's won every title since making it five championships in a row. Meanwhile Ninja 400 rider Ana Carrasco became the first female winner of a full FIM World Championship road-racing category when she finished first in the 2018 WorldSSP300 championship. Kawasaki has won manufacturer and team titles every year since 2015 creating an unrivaled winning streak. If you want to count the wins count on Kawasaki.

## FIRST TO FINISH

To finish first, first you have to finish. You need season long performance from you and your machine. KX gives you the confidence to compete and reassurance to race week in week out. While others may briefly shine and fade, KX riders can rely on rugged reliability and inspired innovation. From MXGP and MX2 to WMX and your local club championship KX riders have every right to be the first across the finishing line. Courtney Duncan 2019 WMX champion.

# Z H2

# Supercharged Z flagship marks beginning of new era

## Z H2

With its refined naked styling and Balanced Supercharged Engine, in addition to performance that can be enjoyed across the rev range combined with superb fuel efficiency, this innovative new model offers high levels of handling and comfort, plus the latest equipment – all suitable features for the new Z Series flagship.

### Z H2 features

Balanced Supercharged Engine • 998 cm<sup>3</sup> liquid-cooled DOHC 16-valve In-Line Four 147 kW (200 PS)\* • TFT Colour instrumentation • Quick Shifter (KQS) UP/DOWN • Front Brakes Brembo M4•32 • Newly designed trellis frame • Assist & Slipper Clutch • Smartphone connectivity • All LED lighting • Electronic Cruise Control • Riding Mode selection • Traction control (KTRC) • Wheelie control • Cornering Management Function (KCMF) • Launch control (KLCM) • Electronic Throttle Valves

### ▼ FAT-TYPE HANDLEBAR AND HANDLE SWITCHES

The instrument panel comprehensively displays various information on the full-colour TFT LCD screen. It also has functions that can help you manage daily vehicle operating status and schedule for long distance riding. This model is equipped with a smartphone connectivity function, which enables connection via Bluetooth.

METALLIC MATTE CARBON GRAY /  
METALLIC FLAT SPARK BLACK

METALLIC DIABLO BLACK /  
METALLIC FLAT SPARK BLACK

METALLIC SPARK BLACK / METALLIC GRAPHITE GRAY /  
MIRROR COATED SPARK BLACK

**ENGINE**

The Balanced Supercharged Engine generates a high maximum power of 147Kw (200 PS) and produces intense an acceleration unlike anything a naturally aspirated engine can provide.

**ASSIST & SLIPPER CLUTCH**

The Assist & Slipper clutch offers a lighter clutch lever feel and prevents rear wheel skipping on quick downshifts.

► **LED LIGHTS**

All the lights – including the headlamp, taillight as well as turn signals and license plate lamp – are equipped with LED bulbs.

**1** The Z H2's advanced electronics package includes numerous electronic control systems such as KTRC, KCMF, and KIBS, as well as an IMU that provides chassis orientation feedback to KIBS and KTRC. In addition, Electronic Cruise Control and KQS further enhance riding convenience.

**1.** Sugomi describes the unique aura that radiates from beings possessing overwhelming presence and unrivalled power. **2.** KQS (Kawasaki Quick Shifter). At engine speeds (rpm) above 2,500 min-1, KQS enables clutchless upshifts and downshifts. **3.** The instrument panel comprehensively displays various information on the full-colour TFT LCD screen. It also has functions that can help you manage daily vehicle operating status and schedule for long distance riding. This model is equipped with a smartphone connectivity function, which enables connection via Bluetooth. **4.** Kawasaki's cruise control system allows a desired speed to be maintained with the simple press of a button.

# Z H2 features

## STYLING

The styling of the Z Series flagship Z H2 was shaped according to its Sugomi & Minimalist design concept. Its dynamic crouching form, which calls to mind a predator poised to attack, and the asymmetric Ram Air intake on its left side are elements of its fiercely intense and highly individualistic Sugomi design. Its compact chassis is the product of a minimalist design philosophy, with all functional parts shown simply, without flourish, and made as small as possible. Conversely, the prominent display of the new steel trellis frame its aluminium pivot plate only underscores their importance – both functionally and as styling elements.

## IMPELLER

The DOHC 16-valve 998 cm<sup>3</sup> In-Line Four Balanced Supercharged Engine generates a high maximum power of 147Kw (200 PS) while also being lightweight and compact. It produces intense acceleration unlike anything a naturally aspirated engine can provide.

## BRAKES

To be easy to ride at low and medium speeds, as well as high speeds, the Z H2 needed brake system that matches its performance. The front brakes are gripped by Brembo M4.32 monobloc calipers. Machined from cast aluminium blocks, their highly rigid one-piece structures boast strong braking force. The calipers are radially mounted, further contributing to their high performance.

## BREMBO BRAKE COMPONENTS

Brembo M50 monobloc calipers with massive 310 mm Brembo semi-floating discs, like found on the Ninja H2R are implemented on the Z1000 R edition. The Brembo components featured are the best available on a mass-production model. The high-precision operation delivers brake force linearly, contributing to superb controllability.

## OHLINS SHOCK ABSORBER

Complementing the enhanced braking performance, high-quality Ohlins S46DR1S rear suspension offers both increased ride comfort and the pride in ownership that comes from the knowledge that your machine is equipped with top-shelf components.

/25

SUPERNAKED  
2019

# REFINED RIDER-FOCUSED SUPERNAKED

Iconic Z900 Supernaked with the sublime balance of power and handling that only Z riders can experience. Updated for 2020, the Z900 maintains the "Exciting and Easy" concept of its predecessor, while offering the next step in aggressive Z Sugomi styling.

# Z900

**FEATURES** • 948 cm<sup>3</sup> In-Line Four • 125 PS (95 PS for A2 license compliant model) • ABS braking  
• Assist & Slipper clutch • Lightweight Trellis frame • Low seat height • Sugomi design philosophy  
• LCD Multi-Functional Instrumentation with gear position indicator • Wide, flat handlebar • ERGO-FIT high seat option • Fully adjustable front and rear suspension • Powerful four piston brake calipers  
• Adjustable clutch and brake lever

Consistently at the head of the field in its capacity class of the naked sector, the Z900 is available in two versions for 2020, a full power machine rated at 125PS (92.2 kW) and an A2 specification model with 95PS (70kW) available.

## NIMBLE HANDLING

Key component to the Z900's light weight is the all-new frame in combination with the extruded aluminum swinging arm.

## Z900 - A2 license compliant

Tuned to give a maximum of 70 kW, the A2 variant of the Z900 can be adjusted to provide a maximum of 35 kW, to comply with the A2 regulations.

**EXCITING IN-LINE FOUR**

The powerful 948 cm<sup>3</sup> liquid-cooled, 4-stroke In-line Four engine has a quick-revving character and a strong mid-range hit that pulls strongly to the redline.

**A host of advanced new features appear including integrated Riding Modes (combining newly added KTRC and Power modes), new TFT colour instrument screen, Bluetooth smartphone connectivity, all-LED lighting and cleaner emissions.**

**Latest Evolution of Z Sugomi Styling**

While the Z900's distinctive Sugomi design elements (crouching stance, low-positioned head and upswept tail) remain unchanged, its eye-catching styling benefits from a number of updates that make its aggressive design even sharper.

- 1.** New ALL-LED headlamp, position lamps, licence plate lamp and turn signalst add to the Z900's sharper new styling.
- 2.** Kawasaki's advanced traction control system provides both enhanced sport riding performance and the peace of mind to negotiate low-traction surfaces with confidence. Three rider selectable modes.
- 3.** A Bluetooth technology built into the instrument panel enables riders to connect to their motorcycle wirelessly. Using the smartphone application "RIDEOLGY THE APP," a number of instrument functions can be accessed, contributing to an enhanced motorcycling experience.
- 4.** The new all-digital TFT colour instrumentation gives the cockpit a high-tech, high-grade appearance. The new meter also offers additional features unavailable on the previous model

# ACCESSORIES Z900

It's not finished until you've added your personal touch. Enhance, protect and modify your Z900 with bespoke Kawasaki genuine accessory items.
